Subject: Recognition of "Journal of Islamic Medical College"

Dear Sir,

Reference is made to the meeting of experts committee for evaluation of Health Sciences Journals held on 05-11-2012 at HEC Islamabad. The subject Journal was presented before the committee for evaluation/recognition. The committee evaluated the journal and it is my pleasure to inform you that the subject journal has been recommended/recognized in "Y" category.

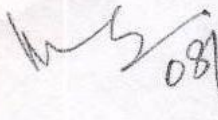

In order to further improve the quality of the journal it is recommended by the committee that Journal must be published quarterly and ensure high quality of research element. Editorial board must be enhanced & diversified. Completeness of references and standardization as per international norms to be followed. Overall formatting of the Journal needs to be standardized and consistency in the font size style must be maintained. Increase the number of research & innovative papers per volume. Website must be developed and maintained and upload all old issues (Other recommendations are enclosed)

The subject Journal has been recognized by HEC in "Y" category up to 30<sup>th</sup> June 2015, however the soft review of the Journal can be made at any time and you have to work hard to upgrade your Journal and get the Journal listed in JCR of ISI.

With kind regards,

  
(Hakim Ali Talpur)
